Igniting a New Era in Care

By creating a broader health system, we knew we could do more for our patients and communities, like giving them what they need and deserve when it comes to their health. Here are a few ways we're making care better and more accessible:

Combine our missions, visions and values into a single system of care by building an independent and community-focused system.

Invest in innovation and health care solutions.

Improve access to providers and recruit high-quality primary care and specialty care providers.

Build and grow community outreach programs across the region.

**Launch programs** in women's health and behavioral health.

Expand access to inpatient and ambulatory care.

Implement performance improvement strategies to improve quality of care.

Luminis Health

Luminis Health℠

Anne Arundel Medical Center and Doctors Community Medical Center are now part of Luminis Health. Learn more at **LuminisHealth.org.**
