

Plan Ahead for Your Delivery

Pre-Register Today

Thank you for choosing Luminis Health Anne Arundel Medical Center to have your baby!

Planning for your child's arrival is a special time. Pre-registering ahead of time helps you feel more prepared for delivery—giving you the chance to gather important documents, think through your birth plan and ensure your care team has the information they need.

Be ready when it's time.

Pre-register today by scanning the QR code or visiting luminis.health/birth-registration.

Benefits of Pre-Registering

Less Stress on Your Delivery Day

- Labor may surprise you—you never know exactly when the time will come. Complete the forms from home, using your own device, so you're not rushing with paperwork later.

Feel More Prepared

- The forms help you gather important documents in advance. It also encourages you to think through post-delivery logistics so you can feel in control when the time comes.

Know What to Expect

- We provide confirmation and next steps once pre-registration is completed. If any information is missing or unclear, we'll follow up well before delivery to avoid any unnecessary surprises or delays.

Focus on What Matters

- We want you to be able to focus on your new baby in those first few days after delivery—not answering questions or filling out forms. By completing the paperwork early, you can focus on your newborn and this exciting new chapter.

Support Safer, More Accurate Care

- Entering your own information reduces the likelihood of errors and helps us keep your records accurate and your care running smoothly.

If you have questions about pre-registration, call our Patient Access team at 443-481-6204.
